PROJECTS

Student Record Management Portal | MERN Stack

Developed a student record management portal using MERN Stack and Redux Toolkit for efficient state management. Implemented CRUD functionality, integrated RESTful APIs, and managed student records through a centralized state management system.

Blog App | MERN Stack

Developed a full stack Blog App using MERN Stack. Implemented user authentication, blog CRUD operations, and backend APIs. Used MongoDB for data persistence and seamless content management.

Anvaya CRM App | MERN Stack

Anvaya CRM App is a full-stack CRM application built using MERN Stack. It helps manage leads, sales agents, and comments with backend APIs, also all data is stored in a database, focusing on smooth data handling and user-friendly UI.
